

JADE THOMAS
JEWELLERY

Ring Sizer

To find your ring size, choose a ring you already wear on that finger and place it over these circles until you find a circle that exactly matches the inside diameter of your ring. Don't use a ring that has warped in shape over time.

Print this page onto an A4 piece of paper, ensuring you uncheck any scale or fit to page check-boxes. Print at 100% scale. To check you have printed correctly, hold a ruler over the scale below - they should match exactly.

If you're in any doubt, email jade@jadethomas.co.uk and I can post out a ring sizer.
